

SUMMARY OF INTERVIEW

Attendees, Date and Type of Interview

The interview was attended by Examiners Matthew Song and Applicant's representative, Zi Wong, on September 17, 2009.

Exhibits and/or Demonstrations

N/A

Identification of Claims Discussed

Claims 30 and 66.

Identification of Prior Art Discussed

Klaus et al.

Proposed Amendments

See below.

Principal Arguments and Other Matters

Applicants noted that the claims can be adjusted to clarify that a continuous or non-static flow of reactants is used and thus further distinguish the cited art.

Results of Interview

Applicants stated that they would amend the claims as described above. The Examiner indicated that the recitation of a continuous flow may be given more patentable weight than the term "flow type reactor."
